

# Technology on Campus for Students

See also the *Student Handbook*.

Students are provided with account information to access the various online resources that are available at the college. From CIA Main Menu, students can find school announcements, scheduled club activities, student services departmental pages, and e-mail. Personal data such as class schedules, grades, and financial aid, student account, and residence life information are also available through CIA Main Menu. The CIA-issued e-mail account and access to CIA Main Menu are provided at the time of admittance into an entry date. For more information on campus-specific technology resources, current students should refer to the Information Technology Services (ITS) page under Campus Resources on CIA Main Menu.

## Peer-to-Peer File Sharing

Peer-to-peer file sharing is not allowed and is blocked on the CIA network using bandwidth-shaping technology. Under the Higher Education Opportunity Act (H.R. 4137), illegal distribution of copyrighted materials may be subject to criminal and civil penalties. The CIA is legally obligated to assist authorities in identifying individuals who violate copyright law pertaining to peer-to-peer file sharing. It is also in violation of school policy to use technology designed to circumvent the blocking of this activity.
