

# Telephones and Television Services

Campus Safety, the Student Affairs Office, and the Residence Life Office handle emergency calls for students; however, they're not equipped to handle non-emergency calls, or to take messages for students. In New York, there is a blue calling-card phone for long-distance calls located in each residence hall.

Wifi is provided in each room. Students may elect to utilize their streaming service of choice. Most Smart televisions are equipped to connect to the CIA wifi.
