

HMMS-303 : Managed Service I

This course is designed to introduce the students to various segments of the hospitality industry including health care, college/university, school (K-12), business and industry, leisure/ recreation, vending, in-flight, and corrections. The traditional food service opportunities are enhanced, but the course goes further in-depth into the other services now being offered by the hospitality companies; i.e., housekeeping, environmental services, and patient care.
