

HMMS-323 : Managed Service II

This course provides students with an understanding of the unique management issues facing the operation of the following hospitality venues: sports stadiums, business and industry accounts (B&I), convention centers, colleges and universities, private/public schools, healthcare such as medical centers, hospitals, critical care retirement centers (CCRC's), and museums/performing arts centers. Students will analyze case studies, contracts, and tour local hospitality properties to describe contract food management operations.
